Section 2: Discussion on the CIP Request

**Please write all statements in complete sentences and proofread your entries.

- what is the capital item and its capabilities or characteristics, and
- the purpose of the capital item
- how large is the item or how much space does the item require – if the request involves the major renovations or expansions or construction of buildings

Justification; and Linkage to Council Goals, Envision Cabarrus, other Master Plans, or Dept. Goals & Objectives – Briefly state:

- the capital item's demonstrated need (If the demonstrated need is in the form of a legal mandate, state the timeline the mandate must be implemented.). In justifying the item, use of research studies/reports, statistics, and/or performance measurement and benchmarking information is preferred, and
- if the project is linked to any planning documents or statements.

History and Current Status; Impact if Cancelled or Delayed – Briefly state:

- background when the CIP request first appeared on the approved CIP (refer to CIP projects listed in the City's official budget document)

- if there have been any changes to costs or scope of the project since the first submission of the CIP request
- if the CIP request relates to any other CIP project,
- the current status of the project (for CIP projects that have been approved only in stages, not in entirety). What stages of the project have been completed? What stages remain? And,
- the impact if the capital item were cancelled or delayed.

Section 3: Project Costs

- In the corresponding fiscal year, type the estimated costs associated with the type of expenditure activity.
- If the capital item is planned to be started within the 5-year CIP window, but the total costs and project completion will not be carried out within the 5-years, type the remaining costs required to complete the item in the "Future \$\$" column. For example: if a \$100,000 project is planned to begin in year 5 and \$25,000 is spent in year 5, the remaining costs should be entered as \$75,000 in the "Future \$\$" column.
- **The spreadsheet will automatically calculate cost totals at the bottom and right side of this section.**

Section 4: New or Additional Impact on Operating Budget

- In the corresponding fiscal year, type any new or additional operating budget costs that would be incurred with the capital request. Items that should be included are new employees needed to operate new equipment, new professional or consulting services needed to operate the capital item, additional materials and supplies needed to operate the capital item, and maintenance and fuel for the capital item.
- Each future year cost should be calculated with a 3.5% inflation factor.

The spreadsheet will automatically calculate cost totals at the bottom and right side of this section.

Section 5: Methods of Financing

- Type the Funding Source for the capital project (refer to the CIP policy for available funding options and consult the Finance Department if necessary) and the amount of revenue needed in the corresponding fiscal year.
- If the capital item is not planned to be completed within the 5-year CIP, type the remaining revenue – in the "Future \$\$" column – required to complete the capital item.
- **The spreadsheet will automatically calculate the revenue totals at the bottom and right side of this section.**
- **NOTE:** Revenues should equal expenditures for each fiscal year and for the entire capital item as a whole.
- **NOTE:** If a CIP request also incurs operating expenses, be sure to identify the non-debt method (refer to CIP policy) that will cover the operating expenses.

Section 6: Maps / Charts / Pictures
