Basic Facilities charge	\$3.91
First 50 kWh	16.8322¢ per kWh
Over 50	8.0177¢ per kWh

**NON-RESIDENTIAL RATES:**

Unless otherwise noted under each rate schedule, all categories under Non-Residential Rates are subject to a Billing Demand, a Minimum Bill requirement and a Power Factor Correction charge as outlined below:

**Billing Demand:** The Billing Demand each month shall be the largest of the following:

- The maximum integrated thirty-minute demand in the previous 12 months including the month for which the bill is rendered.
- Fifty percent (50%) of the contract demand
- 30 kilowatts (KW)

**Minimum Bill:** The minimum bill shall be the bill calculated on the applicable rate including the Basic Facilities Charge, Demand Charge and Energy Charge, but the bill shall not be less than the amount determined as shown below according to the type of minimum selected by the City. Some rate schedules have different Minimum Bills, as noted below.

- Monthly - \$1.79 per KW per month of Contract Demand

If the customer's measured demand exceeds the contract demand, the City may, at any time establish the minimum based on the maximum integrated demand in the previous 12 months including the month for which the bill is rendered, instead of the Contract Demand.

- Annual - \$35.88 per KW per year of Contract Demand  
The City may choose the Annual Charge option if the customer's service is seasonal or erratic, or it may offer the customer a monthly minimum option. Unless otherwise specified in the contract, the billing procedure for annual minimums will be as follows:

For each month of the contract year when energy is used, a monthly bill will be calculated on the rate above. For each month of the contract year when no energy is used, no monthly amount will be billed. The bill for the last month of the contract year will be determined as follows:

- If the total of the charges for 12 months exceeds the annual minimum, the last bill of the contract year will include only the charge for that month.
- If the total of the charges for 12 months is less than the annual minimum, the last bill of the contract year will include an amount necessary to satisfy the annual minimum.

**Power Factor Correction:** When the average monthly power factor of the Customer's power requirements is less than 85 percent, the City may correct the integrated demand in kilowatts for that month by multiplying by 85 percent and dividing by the average power factor in percent for that month.

#### COMMERCIAL WASTE

Effective March 1, 2001, this ordinance applies to all business, commercial, office, multi-family housing, industrial and institutional segments including schools, churches, day care centers, and non-profit organizations.

#### CITY COMMERCIAL ROLL OUT CUSTOMERS

Commercial Rollout Service	\$20.00/cart/month
a. Service performed by Waste Pro.	
b. City to bill for carts on utility bills per city policy	
c. Roll out must be approved by Solid Waste Services Director	
d. Limit of (3) carts per building or number set by Solid Waste Services Director	
e. Only City carts may be used	
f. Residential recycling rollout cart service is available to customers subscribing to City-provided Commercial Garbage Rollout Service. Limit one recycling cart per rollout subscription with Solid Waste Director's approval.	

Qualifications for Commercial Rollout Cart Service: Commercial generators operating out of houses or storefront buildings may request rollout container service where dumpster service is not available or practical as determined by the Solid Waste Services Director. Each building is limited to minimum number of rollout containers required to meet the waste generated by the commercial occupants in the building(s). Commercial generators in "strip malls" are required to use dumpster service and are encouraged to partner with adjacent commercial generators for the service. Other dumpster exceptions granted by the Director shall receive the number of rollout containers necessary for the waste stream generated. The City-established fee for Commercial Roll Out container service shall apply and commercial generators will be billed by the City monthly as a part of the City utility bill and will be billed for the number of carts in their possession, not the number collected. Billing shall be in accordance with the City utility billing and collection policy. Only "City of Concord" rollout containers are emptied. These containers remain the property of the City of Concord. City operated public-housing facilities may utilize rollout containers and per General Statute section 160A-314 (a2) a reduced Public Housing billed by the City for such low income customers shall apply and is adjusted annually according to the Consumer Price Index (CPI).

#### CORRUGATED CARDBOARD RECYCLING SERVICE

- The City collects corrugated cardboard free of charge from commercial generators, irrespective of quantity generated. Small volume generators are required to flatten corrugated cardboard and store it in a location accessible to collection crews for weekly collection. Large volume generators (4 yards per week flattened or greater) will be provided an 8-yard container(s) specifically designed for corrugated collection and weekly collection service. Commercial generators generating in excess of 24 yards per week, flattened, may be required to purchase or rent compaction equipment to facilitate collection efficiency.
- It is the commercial generator's responsibility to ensure that contamination of the corrugated containers is kept to a minimum. Repeated contamination problems can result in removal of the container or termination of service. The City will communicate repeated contamination problems to affected generators.
- Neither the City, nor its contract collector for corrugated cardboard are responsible for any damages to pavement, structures or obstructions encountered during such collection except due to gross negligence.
- All corrugated cardboard collection service will be on a set schedule. The City cannot guarantee additional pickups on a call in basis.

#### OFFICE PAPER RECYCLING SERVICE

- The City provides a roll out cart(s) free of charge to commercial generators for paper recycling. This container may not be used for any trash disposal. The containers remain the property of the City of Concord.
- The City provides commercial generators with a list of acceptable office papers for the recycling program. Generally, all copier, letterhead, computer print out, envelopes, forms, manila folders, post it notes, etc. are acceptable. Paper clips and staples do not have to be removed. Unacceptable items include newspaper, magazines, paper bags, cups and plates, carbon paper and rubber bands.
- Each commercial generator is responsible for collecting the acceptable office paper by whatever means it chooses and placing it in the rollout cart(s) for weekly collection. The City can assist in providing technical assistance on implementing this program. The containers must be placed in an agreed location accessible to collection crews.

#### DUMPSTER SERVICE

- Commercial generators may contract directly with any waste hauler for service
- Except as otherwise provided herein, all commercial generators shall utilize dumpster service for their waste.

#### DUMPSTER SERVICE EXCEPTIONS

- In the event a commercial generator cannot comply with dumpster service policies due to logistical items including but not limited to space or access limitations or other service-related factors, the Solid Waste Services Director or his delegate has the authority to grant exceptions for good cause shown. Such exceptions are subject to the limited rollout container policies below.

#### MULTI-FAMILY HOUSING SERVICE

- Multifamily residence is defined by any apartment or group of apartments, townhomes, or condominiums, having six dwelling units or more. Developments including duplexes and/or other multiple dwelling units that take indirect access from a public right-of-way and collectively exceed 5 dwelling units total are classified as a commercial multi-family development for waste disposal purposes regardless of the number of parcels occupied, the configuration of property or zoning lines, or the number of owners.
- Single-family residence is defined by any detached dwellings designed, permitted and built as a single-family dwelling unit, mobile home, or duplex, triplex, or quadplex, apartment or group of apartments, or townhomes having less than six dwelling units, or any number of condominiums will be residentially serviced at no charge by the city and may use rollout carts.
- Developments with 6 units (e.g. apartment complexes) are required to utilize dumpsters (unless an exception is granted) and pay for container rental and waste disposal. Complexes are required to provide one 8 cubic yard container per 25 units emptied twice per week. Alternatively, the owner may provide a recycling program equal to city residential curbside recycling program with sufficient tenant participation to reduce waste production to justify once per week servicing of each dumpster.
- Multi-family housing owners/managers may use any hauling firm. The Solid Waste Services Director or his/her delegate may grant dumpster exceptions in the event that logistical problems prevent dumpster service from occurring at any given multi-family housing location. Such exceptions shall be subject to the limited rollout container policy above.
- The City will provide information regarding the location of recycling drop off centers to multi-family housing complexes as well as technical assistance in implementing a multi-family recycling program at the complex. The cost to implement and maintain a Multi-Family Housing recycling program will be entirely the expense of the Multi-Family Housing Complex's owner/manager.
- Multi-Family Housing Complexes are considered commercial operations for the purpose of waste disposal, and are responsible to arrange for and pay for disposal of all waste generated from these facilities. The City of Concord does not provide yard waste, bulky waste, building materials, or garbage collection or disposal or recycling services to these facilities.
- Bulky item pick-up service may be requested at Multi-Family Housing who have large items, such as large household appliances (white goods) and old furniture that are too large to be placed in a commercial container. This service is provided for a fee for the collection of up to five items or any portion thereof. Collection of Bulky Items must be scheduled through the Customer Care Center and payment must be received in advance.

#### CONDOMINIUMS

- Condominium service shall be considered residential service provided at no cost by the City
- All new condominium complexes to be constructed in the City of Concord shall be designed and built to allow the use of dumpsters, providing one 8-cubic yard container per the equivalent of 25 2-bedroom units.
- Existing condominium complexes shall utilize dumpsters wherever logistically practical as determined by the Solid Waste Services Director or his/her delegate. Complexes designed and built in a "townhouse" style with detached units may be serviced using roll out carts if deemed practical to do so by the Solid Waste Services Director.
- The City of Concord will pay for residential rollout or dumpster waste removal at condominium complexes.
