To: All Concord Padgett Regional Airport Tenants and Customers

From: Dirk B Vanderleest, Aviation Director

Subject: Cabarrus County Municipalities Stay at Home Proclamation Order

Yesterday the municipalities in Cabarrus County issued as joint “Stay at Home” proclamation order in an effort to slow the spread COVID-19 in our community. The order goes into effect at 5 PM this afternoon and limits public and private gatherings of more than 10 people, restricts travel to essential purposes, and requires non-essential businesses and operations in the county to cease all activities except minimum basic operations or those activities that can be done by employees at home.

The Concord-Padgett Regional Airport is considered essential infrastructure as a public transportation facility and is permitted to continue operations however businesses and individuals that operate at the airport may be affected by the proclamation.

We are advising our tenants to read the attached proclamation closely and contact the Cabarrus Health Alliance with any specific questions on restrictions, what is permissible, and specific information on COVID-19 in our community. Additional information on the proclamation is available at <https://www.cabarruscounty.us/news/local-officials-stay-at-home-proc>

Questions about essential vs. non-essential should be emailed to response@cabarrushealth.org.

This is a public health emergency and as the Mayor of Concord indicated yesterday in his statement: “When you do your part, you will keep yourself safe as well as our health care workers, first responders, and others providing critical services. You can and will make a difference”.

Thank you for your attention to and cooperation with this proclamation and we look forward to getting back to normal operations when this health emergency subsides.
