

**CITY OF CONCORD  
CONCORD, NORTH CAROLINA  
SCHEDULE 5-GB  
GENERAL SERVICE**

**AVAILABILITY**

This Schedule is closed and not available for service to customers at locations where the Customer was not served by the City prior to the effective date of this Schedule, December 1, 1981.

Service under this Schedule shall be used solely by the contracting Customer in a single enterprise, located entirely on a single, contiguous premise.

This Schedule is not available to the individual customer that qualifies for a residential schedule, nor for auxiliary or breakdown service; and power delivered hereunder shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for, under any other schedule of the Power Company, except at the option of the City, under special terms and conditions expressed in writing in the contract with the Customer.

The obligations of the City in regard to supplying power are dependent upon its securing and retaining all necessary right-of-way, privileges, franchises and permits, for the delivery of such power, and the City shall not be liable to any customer or no applicant for power in the event it is delayed in, or is prevented from furnishing the power by its failure to secure and retain such rights-of-way, rights, privileges, franchises and permits.

**TYPE OF SERVICE**

The City will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages where available:

Single-phase, 120/240 volts, or  
3-phase, 208Y/120 volts, 480Y/277 volts; or  
3-phase, 3-wire, 240, 480, volts; or  
3-phase, 12470/7200 volts; or  
3-phase voltages other than those listed above may be available at the City's option, if the size of the Customer's contract warrants a substation solely to serve that Customer, and further provided that the Customer furnish suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault in accordance with the City's specifications.

The type of service supplied will depend upon the voltage available. Prospective customers should ascertain the available voltage by inquiry at the office of the City before purchasing equipment.

Motors of less than 5 H.P. may be single phase. All motors of more than 5 H.P. must be equipped with starting compensators. The City reserves the right, when in its opinion the installation would not be detrimental to the service of the City, to permit other types of motors.

**RATE**

- |     |                         |         |
|-----|-------------------------|---------|
| I.  | Basic Facilities Charge | \$19.28 |
| II. | Energy Change           |         |

For the First 125 KWh per KW Billing Demand per Month:

For the first 3,000 KWh per month	13.3265 cents per KWh
For the next 87,000 KWh per month	11.9717 cents per KWh
For all over 90,000 KWh per month	10.9120 cents per KWh

For the Next 275 KWh per KW Billing Demand per Month:

For the first 6,000 KWh per month	9.1415 cents per KWh
For the next 134,000 KWh per month	7.7196 cents per KWh
For all over 140,000 KWh per month	6.7271 cents per KWh

For All Over 400 KWh per KW Billing Demand per Month:

For all KWh per month	6.4722 cents per KWh
-----------------------	----------------------

**DEFINITION OF "MONTH"**

The term "month" as used in this Schedule means the period intervening between meter readings for the purposes of monthly billing. Readings are taken once a month at intervals of approximately thirty (30) days.

**POWER FACTOR CORRECTION**

When the average monthly power factor of the Customer's power requirements is less than 85 percent, the City may correct the integrated demand in kilowatts for that month by multiplying by 85 percent and dividing by the average power factor in percent for that month.

**PURCHASE POWER ADJUSTMENT RIDER**

The City's Purchase Power Adjustment Rider is applicable to all service supplied under this schedule.

**RENEWABLE ENERGY PORTFOLIO STANDARD (REPS) RIDER**

The City's Renewable Energy Portfolio Standard (REPS) Rider is applicable to all service supplied under this schedule.

**EXTRA FACILITIES CHARGE**

A monthly "Extra Facilities Charge" equal to 1.7% of the installed cost of extra facilities necessary for service required under this schedule, but not less than \$25, shall be billed to the Customer in addition to the bill under the appropriate rate schedule when applicable.

**PAYMENT**

Bills under the Schedule are due and payable on the date of the bill at the office of the City. Bills are past due and delinquent on the fifteenth day after the date of the bill. If any bill is not paid, the City has the right to suspend service. In addition, all bills not paid by the twenty fifth day after the date of the bill shall be subject to a one and one-half (1½%) late payment charge on the unpaid amount. The late payment charge shall be rendered on the following month's bill and it shall become part of and be due and payable with the bill on which it is rendered.

**CONTRACT PERIOD**

Each customer shall enter into a contract to purchase electricity from the City for a minimum original term of one (1) year, and thereafter from year to year upon the condition that either party can terminate the contract at the end of the original term, or at any time thereafter by giving at least sixty (60) days' previous notice of such termination in writing; but the City may require a contract for a longer original term of years where the requirement is justified by the circumstances.

Effective for bills rendered on and after September 1, 2015.
